Sadamori Kojaku

Assistant Professor at School of Systems Science and Industrial Engineering
Thomas J. Watson College of Engineering and Applied Science, Binghamton University
EB-J19, 4400 Vestal Pkwy E, Binghamton, NY 13902
skojaku@binghamton.edu | 812-646-8447 | https://skojaku.github.io/

Education

Ph.D. Computer Science Sep. 2013 – Sep. 2015
Hokkaido University, Japan (Thesis supervisor: Prof. Mineichi Kudo)

M.S. System Engineering Apr. 2010 – Mar. 2012
Hokkaido University, Japan (Thesis supervisor: Prof. Hajime Igarashi)

B.S. System Engineering Apr. 2007 – Mar. 2010
Hokkaido University, Japan (Thesis supervisor: Prof. Hajime Igarashi)

Experience

Assistant Professor Aug. 2023 – Present
Systems Science and Industrial Engineering, Binghamton University *Binghamton, USA*

- Conducting research in the field of complex systems and network science
- Supervising Three Ph.D. students in their dissertations and research projects
- Teaching two graduate courses in Systems Science and Industrial Engineering

Postdoctoral Research Fellow Feb. 2020 – Jul. 2023
School of Informatics, Computing, and Engineering, Indiana University *Bloomington, USA*

- Developed algorithms for analyzing large-scale data on scholarly data
- Mentored one Master and several Ph.D. students in their research projects
- Teaching a graduate course on Data Visualization

Specially Appointed Professor (Postdoc) Apr. 2019 – Jan. 2020
Research Institute for Economics and Business Administration, Kobe University *Kobe, Japan*

- Developed a search engine for finding relevant reviewers for a paper (patented)
- Mentored one Ph.D student in developing their research proposals and methodologies

Research Associate Apr. 2016 – Mar. 2019
Department of Engineering Mathematics, University of Bristol *Bristol, UK*

- Conducted research on complex networks

Manuscript in preparation

(BU students underlined; my name in italics)

[A1] <u>Yoshiaki Fujita</u>, <u>Akshay Gangadhar</u>, *Sadamori Kojaku.* On the high-order cumulative advantage in citation and collaboration networks in science.

[A2] <u>Mario Franco</u>, *Sadamori Kojaku*, Carlos Gershenson. Is vanilla is enough, why do we need chocolate and strawberry? A Neapolitan approach to artificial neural networks.

[A3] <u>Dheeraj Tommondru</u>, <u>Xuanchi Li</u>, <u>Xin Wang</u>, *Sadamori Kojaku.* Feature selection method based on the adversarial dismantling of feature networks.

[A4] <u>Xuanchi Li</u>, *Sadamori Kojaku.* Fast inference on the maximum entropy model for networks.

Patents

[H1] *Sadamori Kojaku*, Takashi Kamihigashi. Academic paper reviewer search device, reviewer search method, and reviewer search program. 2024 [7470369. Japan Patent Office]

[H2] *Sadamori Kojaku*, Takayuki Osogami. Prediction method, prediction system and program. 2013 [9087294. Japan Patent Office]

Honors

- Best Presentation Award. The International Conference on Complex Networks (CompleNet). 2025
- Art of Science Competition Finalist, Judges Choice [14/85 entries]. Binghamton University. 2024
- Outstanding Faculty Award from Students with Disabilities. Binghamton University. 2024
- Best Contribution on Financial Networks Award [1/58 presenters]. International School and Conference on Network Science (NetSci-X). 2017
- Dean Award. Graduate School of Information Science and Technology, Hokkaido Univ.. 2015
- Best Student Award. The World Congress on Engineering. 2013

Teaching

SSIE 419/519 Applied Soft Computing. Instructor (Spring 2024). Binghamton University

SSIE 419/519 Applied Soft Computing. Instructor (Spring 2024). Binghamton University

SSIE 641 Advanced Topics in Network Science. Instructor (Fall 2024). Binghamton University

SSIE 641 Advanced Topics in Network Science. Instructor (Fall 2023). Binghamton University

BL-INFO-I590 Data Visualization. Instructor (Fall 2023). Indiana University

PhD Student Guidance Committee

(As Advisor or Co-Advisor)

Chand Sahil Mansuri (SS), Expected to Graduate in 2027.

Xin (Vision) Wang (SS), Expected to Graduate in 2027.

Luke Netto (SS), Expected to Graduate in 2028.

Xuanchi Li (SS), Expected to Graduate in 2027.

Hayford Adjavor (SS), Expected to Graduate in 2026.

MS Student Guidance Committee

(As a commitee member)

Miriam Flores (SS). The Impact of Autonomous Vehicles on Traffic Flow. Expected to Graduate in 2024.

International and Professional Services

[H3] Chair of Rep4CS, a satellite workshop on Representation learning for complex systems, as a part of Conference on Complex Systems 2024 at Exeter in UK.

[H4] Organizer of NetSci-X 2020, International School and Conference on Network Science in Tokyo. 2020.

[H5] Program Committee Member in International School and Conference on Network Science (NetSci) (2019, 2020, 2021, 2022, 2023).

[H6] Referee for Nature Human Behavior; Nature Communications; Scientific Reports; Journal of Complex Networks; Journal of Computational Social Science; PLOS ONE; ECAI

Service within the University

[I1] Faculty Fellow, Bernard M. and Ruth R. Bass Center for Leadership Studies, Binghamton University. 2026–present.
